MBARACHI VICTOR NDUDIM

SUMMARY

5 years experienced frontend developer with hands-on experience using both Angular and React.js frameworks respectively in identifying web-based user interactions along with designing and implementing highly-responsive user interface components. Proficient in translating designs and wireframes into high-quality code, and writing application interface code via Javascript, Angular and ReactJS workflows. Adept at monitoring and maintaining frontend performance and troubleshooting, debugging the same to bolster overall performance.

SKILLS

- Coding
- Application Designing
- Wireframe & Design
- Front-end Architecture
- Mobile Development & Deployment
- Translation
- Debugging
- Performance Improvement
- Web Page Designing
- Web Page Optimization

TECHNICAL SKILLS

- JavaScript
- TypeScript
- Next js
- Angular
- React
- IONIC
- Cordova
- CSS
- HTML

EXPERIENCE

MediSmarts Limited, Lagos — *Front End Developer*

Nov 2019 - PRESENT

UI Components Designing & Application Interface Coding

- Identify web-based user interactions and develop highly-responsive user interface components via either Angular or React concepts.
- Translate designs & wireframes into high-quality code and write application interface code via JavaScript following React.js or Angular workflows.

Code Debugging & Front-end Architecture

- Troubleshoot interface software and debug application codes to improve functionality and performance by 50%.

- Develop and implement front-end architecture to support user interface concepts with 100% accuracy.

Performance Optimization and Features Development

- Monitor and improve front-end performance by 15% and document application changes
- Develop user-facing features using React.js and build reusable components for future use.
- Optimize components for maximum performance across a vast array of web-capable devices and browsers.

Application Development & UI Designing

- Coordinate with the development team of 8 to discuss user interface ideas and applications.
- Review application requirements and interface designs to ensure compatibility with existing applications.

Mobile Development

- Use the latest version of IONIC framework (REACT) and Cordova to build and maintain mobile applications.

PBG COMMUNICATIONS LTD, Lagos — *Front End Developer*

Oct 2017 - Nov 2019

Webpage Designing & Optimization

- Determined the structure and design of web pages based on user requirements and balanced functional & aesthetics designs.
- Created features to enhance the user experience while ensuring that the web design is optimized for smartphones
- Employed a variety of languages such as HTML and CSS to write & create user-friendly web pages .

Code & Website Improvement

- Built reusable code for future use and optimized web pages for 5 applications for maximum speed and scalability.
- Managed brand consistency throughout the designs and maintained & improved the company's website by adding more features and functionality.

Project Delivery & Graphic Designing

- Liaised with cross-functional teams to ensure that the client projects were completed on time and within a stipulated budget.
- Produced high-quality mockups & designed different prototypes and provided high-quality graphics & visual elements

EDUCATION

Michael Okpara University — *B.Sc. in Computer Science*

2011 - 2015, Abia State

Radiance High School, Lagos — *West African Senior School Certificate Examination*

2004 - 2010, Lagos State
